Using a 13mm socket, loosen M8 bolt from forward most bed channel on the underside of the truck. Loosen bolt to a gap of about 12mm (1/2"). Slide slotted end of the drill template over bolt and hold template in place with tape. Center punch hole and pre-drill using an 1/8" drill bit. Then drill to 17/32". Apply GM Vehicle Care Super Lube to drilled surface.

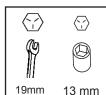

Install Rivet Nut onto bed channel. With Rivet nut tool held in place with19mm wrench, tighten hex bolt until rivet nut deforms and secures itself to the sheet metal. Torque to 20 ft-lbs. Remove hex bolt and rivet nut tool. See Figure 5a for rivet nut tool assembly. Install M8 Washer Hex Bolt into Rivet Nut, leaving gap of about 12mm (1/2").

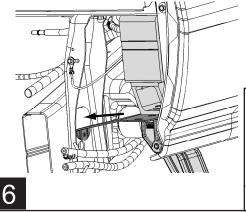

Lift Bedside Assist Step assembly into position, hooking Upper Mount onto installed bed channel bolts from Step 5. Snug bolts and slide Frame Bracket up to frame (in arrow direction) and mark hole location. Remove Step assembly, Center punch and pre-drill using a 1/8" drill bit. Then drill to 17/32".

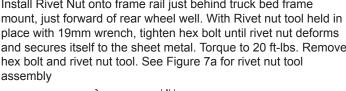

RIVET NUT TOOL ASSEMBLY M8 Hex Bolt M8 Flat Washer Rivet Nut Tool Rivet Nut

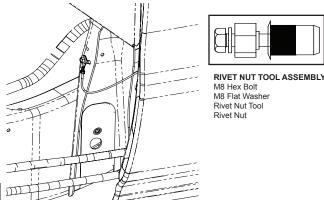

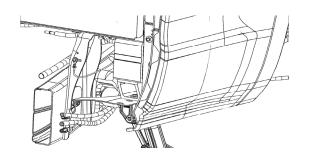

Install Rivet Nut onto frame rail just behind truck bed frame mount, just forward of rear wheel well. With Rivet nut tool held in place with 19mm wrench, tighten hex bolt until rivet nut deforms and secures itself to the sheet metal. Torque to 20 ft-lbs. Remove hex bolt and rivet nut tool. See Figure 7a for rivet nut tool

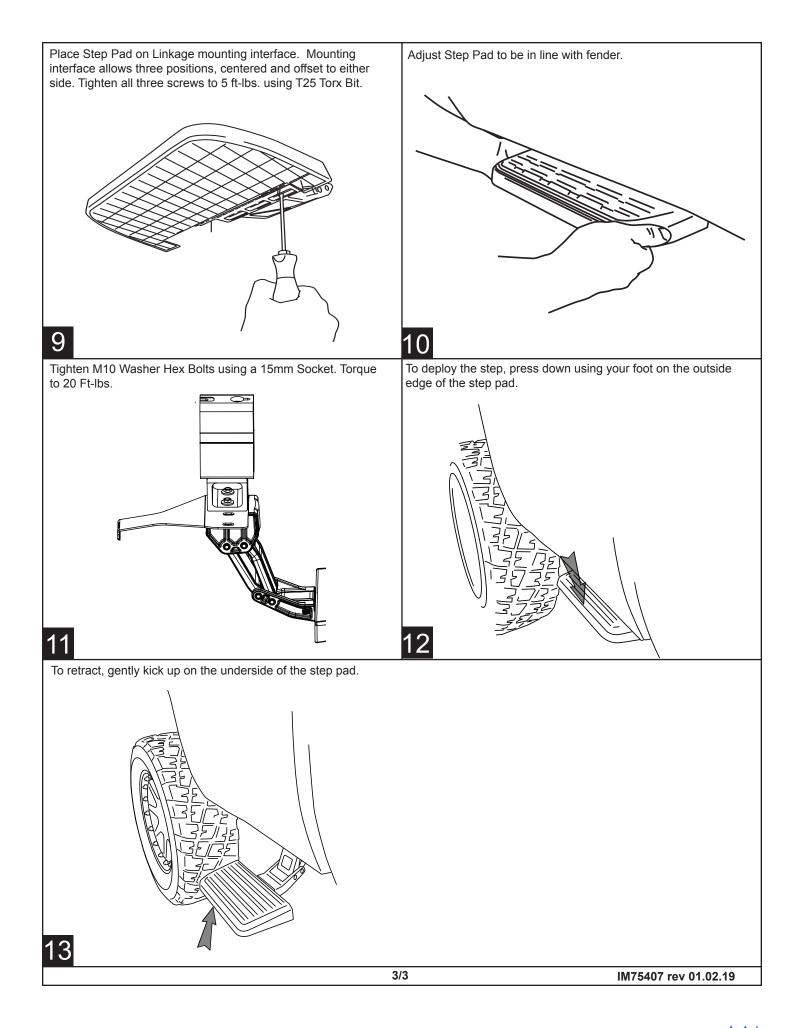

Lift Bedside Assist Step assembly into position, hooking Upper Mount onto installed bed channel bolts from Step 5. Install additional M8 Washer Hex Bolt through Frame Bracket and into Rivet Nut installed on frame rail. Straighten assembly and tighten bolts to 16 ft-lbs.

Congratulations on your purchase of the genuine AMP Research BedStep2™. Here's what you should know...

BEDSTEP2™ OPERATION

The AMP Research BedStep2[™] is foot operated and deploys and retracts with a nudge of your foot. To deploy, press down using your foot, on the outside edge of the step pad. Maximum load capacityof the deployed step pad is 300 lbs. Always use appropriate hand holds when stepping up to or down from your truck's cargo bed.

To retract, gently kick up on the underside of the step pad.

MAINTENANCE TIPS - The stepping surface and linkage should be periodically washed with mild soap and water using a soft brush or sponge to dislodge any mud, dirt or accumulated road grime. **In severe driving conditions, pressure washing the linkage is strongly recommended.** Do not apply silicone spray, waxes or protectants like Armor All* to the stepping surfaces.

CAUTION! BEDSTEP2™ SHOULD ALWAYS BE STOWED IN THE RETRACTED POSITION WHEN DRIVING.

AMP RESEARCH LIMITED WARRANTY

AMP RESEARCH warrants this product to be free from defects in material and workmanship for THREE (3) YEARS FROM DATE OF PURCHASE, provided there has been normal use and proper maintenance. This warranty applies to the original purchaser only. All remedies under this warranty are limited to the repair replacement of the product itself, or the repair or replacement of any component part thereof, found by the factory to be defective within the time period specified. The decision to repair or replace is wholly within the discretion of the manufacturer.

This warranty specifically excludes labor. If you have a warranty claim, first you must call our factory at the number below for instructions. You must retain proof of purchase and submit a copy with any items returned for warranty work. Upon completion of warranty work, if any, we will return the repaired or replaced item or items to you freight prepaid.
