(2) Mount #41659

* LIGHTS SOLD SEPARATELY

***THIS MOUNT FITS THE FOLLOWING LIGHTS:**
(2) D-Series PRO®, (2) D-SS PRO®, (2) SR-M PRO®, (2) IGNITE®

IMPORTANT

THANK YOU FOR PURCHASING RIGID PRODUCTS FOR YOUR VEHICLE.
Please read through all of these Instructions and tips before proceeding with the installation.
We do our best to provide a simple installation process for all applications however
a professional installation is always recommended.

Always disconnect any power sources connected to your vehicle before servicing fuses or electrical systems.

STEP 1

Begin installation by folding the windshield down in the manner described in the vehicle owner's manual. Taping surrounding surfaces or laying down protective towels is recommended.

See Figure 1

FIGURE 1

STEP 2

Installation should be performed one side at a time to minimize windshield adjustment. Remove the 2 lower hinge mounting bolts that are now accessible.

See Figure 2

FIGURE 2

STEP 3

Reinstall original bolts and tighten as shown in Figure 3. The windshield may require re-adjustment, which can be done by slowly folding the windshield up and re-adjusting the hinge bolts until optimal alignment is achieved. The mount will clear the cowl when folded down WITHOUT the lights installed. Once the lights are in place, this mount will not allow for fold down without light removal.

See Figure 3

FIGURE 3

STEP 4

Your mount installation is now complete! Install your lights as directed in the instructions provided with the kit.

See Figure 4

FIGURE 4

Wiring: Wire your lights according to the instructions included with the light. Take care to avoid any heat sources and sharp or abrasive surfaces.

Your installation is now complete.
Welcome to the Rigid Nation!
