# INSTALLATION INSTRUCTIONS

## GENERAL A-PILLAR MOUNT KIT

**PRODUCTS INCLUDE:**

- (2) RIGID mounting brackets
- Mounting hardware

### IMPORTANT

THANK YOU FOR PURCHASING RIGID INDUSTRIES' PRODUCTS FOR YOUR VEHICLE.

Please read through all of these Instructions and tips before proceeding with the installation. We do our best to provide a simple installation process for all applications however a professional installation is always recommended.

Always disconnect any power sources connected to your vehicle before servicing fuses or electrical systems.

### STEP: 1

Install one A-Pillar bracket at a time. Open the vehicle's hood and locate the hood hinges, remove bolts from hinge using the appropriately sized socket.

Caution: Once the bolts are removed the hood will be floating on the hinge. The hood should be held in place to avoid damaging any part of the vehicle.

### STEP: 2

Under the hood, attach the A-Pillar bracket to the vehicles bolts loosely.

# INSTALLATION INSTRUCTIONS

## STEP: 3

Gently lower hood but do not latch. Position the light mounting bracket to allow installation of the carriage bolt, washer and nut. Use a wrench to tighten the nut to secure the light to the bracket.

## STEP: 4

Carefully open the hood and position the finalize bracket position and spacing. Tighten hardware to factory torque specifications using the vehicle's factory service menu. Do not over tighten.

## STEP: 5

Aim lights to desired angle and repeat steps for passenger side.

Wiring: Wire your lights according to the instructions included with the light.
Take care to avoid any heat sources and sharp or abrasive surfaces.

Wiring: Wire your lights according to the instructions included with the light. Take care to avoid any heat sources and sharp or abrasive surfaces.

Your installation is now complete.
